

- 1 Warming up.
- 2 Checking homework.
- 3A linguistic battle.
- 4 Research work.
- 5 Consolidation(hometask).

2 Checking homework.

Each game must have some rules. You were divided into 2 groups: the 1st group was given a task to make a list of rules for students and the 2nd group-for teachers. Let's check them up and discuss. Don't forget to use the expressions.

Yes, I agree, but on the other hand sometimes it's a problem to dress in a proper way, maybe use a dress code at school. I think casual clothes or something like that can distract from studies. Do you really think that teachers won't give much homework? What about be always ready to help pupils.

На доске открываются правила для учеников и учителей.

Rules for students.

- Be quiet and polite to all.
- Don't be late for school.
- Do your homework regularly.
- Don't speak loudly.
- Dress in a proper way.
- Keep the classroom clean.
- Don't interrupt the teacher.
- Don't break school rules.
- Don't use mobile phones during the lesson.

Rules for teachers.

- Be polite and tolerant to pupils.
- Don't speak loudly.
- Follow a dress code at school.
- Don't interrupt pupils while answering the task.
- Don't give much homework.
- Don't use mobile phones during the lesson.

3 A linguistic battle.

Well, we have already had 2 items for our presentation (the picture and the rules). Now we'll see how well you know the words which help us with the work. There are 2 teams in our class and the team that gives more words on the topic "School" is the winner. You have 3 minutes. Ready, steady, go.

Our congratulations to the winner.

4 Research work.

And now is the main part of our lesson. Look around , you see a lot of portraits of famous English people who played an important role in the country. And now you have some portraits of the teaching staff and administration . Who would you choose to be put in the presentation , who are the main players of our school? Make the gallery of school leaders matching the pictures with the

names. This is the task for information group.

All the rest are going to do some research work and collect the pieces of treasure answering the questions.

You may use the Internet, the information of our school site, walk around the school and inside it, ask the teachers and the administration, ask pupils or students.

While we are collecting your information, our information group is making the presentation of our game. The first to come with pieces of treasure will get bonus.

Before our presentation is made, we have some time to see a film about schools in Great Britain. So think “ What can we do to make our school better?”

На карточках у учащихся вопросы:
When was our school founded?
Who was the first head-teacher of the school?
How many forms are there in our school?
How many schoolchildren are taught in the school?
How many students finished our school with gold medals last year?
How many teachers work in our school?
What is the area of our school?
How many poplar- trees grow in front of the school?
How many computers are available for students and teachers in all three buildings?
How many pages are there in our web-site?

В качестве бонуса первые, кто справился с заданием получает карточку с заданием: расшифровать слова по теме»Школа»

Учащиеся просматривают учебный фильм-Opportunities in Britain.

O.K., let's put your recommendations in -to our presentation. So, who would like to comment ?
Can you add anything?

OUR SUGGESTIONS:

Make the atmosphere more informal at some lessons.
More delicious food in the canteen.
More sports facilities.

I study at gymnasium №2 in Kolomna. My school is one of the best, oldest specialized schools in our town. It is famous for its high-quality education and strict discipline. It consists of three buildings and its total area is 2400 square metres. There are many trees and bushes on the territory of the school and we can see 20 poplar trees in front of it. It was founded in 1957 and the first head-teacher was M.Kastuev. Now our school is the biggest in Kolomna. There are 43

Our school is our treasure

- How many pieces of treasure can you collect?

classes and 1092 schoolchildren there. 63 teachers , members of administration work in our gymnasia. It is well-equipped. 86 computers are available for students and teachers in all three buildings. Our school has a web-site and it has 8 pages. Our students always take part in different competitions and Olympiads and we are often the winners. Last year 7 students finished our school with gold medals and 11 with silver ones.

We are proud of them and we are proud of our teachers and school. But I think to make our school life better we suggest making the atmosphere more informal at some lessons, having more delicious food and more sports facilities. Welcome to our gymnasia!

Consolidation(hometask).

Did you like the lesson?

What did you like most of all?

Would you like to show our presentation to your friend of other schools or even of other countries?

It' s only a demo-version. What other pieces of treasure can you collect think about it at home. So, your hometask is using our presentation(it will be put in our web-site) make 2 or 3 slides in addition to a topic"Our school is our treasure."In today's game we don't have winners ,but we've done great work and our award is our presentation. All of you get excellent marks. Thank you for the lesson, good bye.

I did. It's very unusual for me to do such work , but I like it.

I think It will be interesting to show it to our friends.
